

....From the Crow's Nest

December 19th, 2008

Happy Holiday's to you all! It is our hope that this blessed season brings joy and happiness to everyone.

The new pool furniture has arrived, and it is beautiful – hopefully it will warm up so you can all lounge in the sun and enjoy it soon.

It seems as if you are all getting acquainted with the usage of the new card system in the laundry room. If you use up the funds on your card, please don't throw it away. You can re-load your card with money from the machine located in each laundry room. We have ordered some boxes for recycling of cards for those of you that are leaving the Resort and will no longer be using them. These boxes should be in place in each laundry room within the next week or so.

Thank you for your patience with the cable repairs, it is nearly complete – we are doing some fine tuning. Channel 8 is now broadcasting on channel 18. The program guide on your TV will be updated soon by our vendor. Remember you will not see any cable charges on your December statement.

The new Voyager Credit Cards for all Voyager Annuals, Bay and Cove residents have been mailed out. The new computer system no longer recognizes the old client numbers, but rather finds residents by site numbers. The new credit cards will have your name and site number (Cove, this will be your lot number). Beginning January 1st, you must present your card in order to use your Voyager Charge – this is for your safety so someone doesn't charge to your site number.

Have a safe and happy holiday

Joe Boyd
